

LennyTunes

COMPOSER · PRODUCER · MULTI-INSTRUMENTALIST · JAFFA

WHO

LennyTunes is the artist project of Jaffa-based composer, producer and multi-instrumentalist Lenny Ben Basat. His high-fidelity, live-driven music moves between organic house, downtempo, cinematic electronica, belly-dance and global instrumental forms, shaped by Middle Eastern maqam, North African rhythm, regional instruments and analog studio craft. Behind the project is more than 30 years of international work across records, live performance and screen music.

THE STUDIO

Working from his studio in old Jaffa, in the quarter where the city's belly-dance clubs stood through the 1960s and 70s, Lenny records live regional instruments and analog synthesizers side by side. The music carries the same history: nightlife, weddings and live performance.

LIVE

LennyTunes DJ Set · solo, built from the catalog and related electronic music from the Mediterranean, Middle East and North Africa.

LennyTunes Live · a performance-led show played on stage, solo or with up to three musicians.
